

FATIMAH ELTELINY

Management Consultant — Governance, Risk, Quality, Customer Experience & Operational Excellence

Riyadh, Saudi Arabia · +966 53 814 7894 · fatimah.elteliny@gmail.com · [LinkedIn](#) · [Portfolio](#) · Egyptian · Transferable Iqama

PROFILE

Management consultant with 11 years across governance, enterprise risk, internal audit, regulatory compliance, quality management, customer experience and operational excellence — delivering to Saudi government, sovereign, banking and regulated clients. Rebuilt the governance model of a Royal Court-affiliated entity from zero. Built enterprise risk registers across 34 departments and two three-year risk-based internal audit plans. Took a national platform's quality and customer experience system through TÜV external audit to ISO 10002 and ISO 10004 certification on the first cycle, then through surveillance. Six of those years were spent inside the operation being measured — carrying service and satisfaction targets, resolving cases as the last line before the Ombudsman, and championing three core banking system migrations. Native Arabic, full professional English.

SELECTED ENGAGEMENTS

Decision Support Centre — Royal Court affiliate

SOVEREIGN · GOVERNANCE MODEL REBUILD

- Delivered the full governance architecture: governance charter, board and board-committee executive bylaws, committee charters, and the approved delegation-of-authority matrix.
- Authored the policy and procedure manual and a 15-policy suite spanning data governance, data quality, data classification, open data, data sharing, freedom of information, personal data protection, e-signature, conflict of interest and disclosure, and a policy-on-policies.
- Built the anti-fraud and whistleblowing policy, code of professional conduct, RACI matrices across seven board committees, and the consolidated compliance universe of applicable laws, royal decrees and regulations. Aligned to ISO 37301, ISO 37000, COSO ERM and OECD principles.

National Government Resource Management Centre (NCGR) — E'timad Platform

GOVERNMENT · LEAD CONSULTANT · QUALITY & CX TRANSFORMATION

- Owned total quality management and performance monitoring for the national beneficiary support and enablement system. Current-state assessment and gap analysis against ISO 9001, 10002, 10004 and the COPC customer operations standard.
- Designed the policy and procedure suite, customer journeys, complaint-handling charters, satisfaction survey instruments across customer segments, the mystery shopping programme, risk and compliance registers, CRM improvements, and the KPI and reporting architecture.
- Ran the internal audit, then achieved ISO 10002 and ISO 10004 certification on the first cycle via TÜV external audit. Sustained a second year of corrective actions and passed the first surveillance audit.
- **90% reduction in complaints · 78% operational efficiency gain · 30% improvement in KPI attainment.**

Aldrees Industry & Mining · Naqi Water

PRIVATE SECTOR · ERM & INTERNAL AUDIT

- Ran risk identification workshops and built complete enterprise risk registers across 34 departments (20 at Aldrees, 14 at Naqi Water); assessed mitigations and controls.
- Translated the risk picture into two prioritised three-year risk-based internal audit plans on a repeatable methodology.

MoMRAH — Emergency & Crisis Management Centre

GOVERNMENT · GOVERNANCE & ESTABLISHMENT

- Phase 1 — reviewed strategy, governance system and organisational structure; benchmarked local, regional and international bodies; built the current-state assessment and the initial risk registers that surfaced the critical gaps.
- Phase 2 — designed the target model: service catalogue, organisational structure, policies and procedures, governance framework, human capability and technical requirements.

Saudi Real Estate Arbitration Centre

INDEPENDENT · PROCEDURAL MANUAL

- Authored 75+ process maps in Visio and consolidated them into the Centre's procedural manual. Delivered on a compressed timeline and approved without major revision cycles.

Market entry & investment feasibility studies

PRIVATE / INDUSTRIAL · DATA CENTRE · ALUMINIUM · GLASS

- Three complete feasibility studies for investors and executives evaluating entry into the Saudi market: a data centre, an aluminium manufacturing plant and a glass factory.
- Demand sizing, competitive landscape, regulatory environment, capital and operating cost modelling, financial projections, return analysis and entry risk. Financial workbooks, analytical documents and board-ready reporting in Arabic and English.

Public tenders — Etimad

BID & PROPOSAL · ARABIC AND ENGLISH

- Technical proposals, feasibility studies and business cases for Saudi public tenders — including a data warehouse proposal for the Saudi Broadcasting Authority, a topographic survey tender for a medical services entity, and a financial transparency proposal on an Etimad procurement project.

PROFESSIONAL EXPERIENCE

Management Consultant | ANMAT, Riyadh Mar 2024 – Present

- Advise public-sector, semi-government and regulated organisations on governance transformation, operational excellence, quality management, customer experience and performance improvement.
- Lead current-state assessments, benchmarking, process reviews and gap analysis; translate findings into workplans, milestones and corrective actions.
- Design TQM systems, customer journeys, complaint-handling charters, satisfaction systems and root-cause analysis processes.
- Conduct multi-departmental audits with corrective action follow-up; prepare and present VP- and President-level reporting.
- Own RFP and technical proposal development, feasibility studies and business case preparation for public tenders (Etimad) — in Arabic and English.

GRC & Operational Transformation Consultant | Bunyan Middle East, Riyadh *Mar 2023 – Mar 2024*

- Delivered project-based governance, compliance, ERM, internal audit and operational transformation across government, Royal Court-affiliated, manufacturing and regulated clients.
- Built governance operating models — structures, roles, job descriptions, policies, procedures, accountability mechanisms and reporting lines.
- Developed compliance universes and regulatory obligation frameworks from laws, royal decrees and regulatory requirements.
- Ran enterprise risk assessments and multi-sector risk registers; supported internal audit planning, execution and corrective action tracking.

Compliance Officer | Emirates NBD, Cairo *Jun 2021 – Mar 2023*

- AML, KYC, CDD and sanctions screening; investigated and escalated suspicious transactions in line with financial crime procedures.
- Delivered Central Bank of Egypt foreign-currency control initiatives across the branch network.
- Handled fraud and AML cases in alignment with branches, operational risk management, insurance partners, the Central Bank, and correspondent banks inside and outside Egypt.
- Conducted branch compliance audits as part of an initiative to raise adherence across the network.
- Raised defects in existing SOPs and drove them to remediation with the relevant teams through the formal approval sequence.
- Maintained compliance records, evidence files and audit trails supporting internal review, external audit and regulatory inspection.

Customer Service Team Lead | Emirates NBD, Cairo *Apr 2019 – May 2021*

- Total manager of an outsourced contact-centre team — performance and administration — against service level, AHT, first-contact-resolution, quality, CSAT and NPS targets.
- Shift leadership and real-time management; live escalation handling and stuck-ticket resolution.
- Quality assurance through call listening and review of chat and email quotas; coached staff through performance feedback and corrective action plans.
- Owned the knowledge base and cascaded new knowledge to the floor. Designed a unified CRM ticket template so downstream teams received every field needed to close a case first time.
- **Championed three core system migrations** — loans, debit cards and CRM.

Internal Audit Officer | Emirates NBD, Cairo *Sep 2018 – Apr 2019*

- Reviewed policies, procedures and transactions to assess control effectiveness, regulatory adherence and operational risk exposure.
- Identified control gaps and non-compliance; prepared audit observations with root-cause analysis; agreed action plans with business units and followed remediation to closure.

Customer Service Officer | Emirates NBD, Cairo *Aug 2017 – Aug 2018*

- Front-line customer support across banking products; complaint handling, CRM documentation and KYC-related activities.

Escalation Manager · Billing Advisor | Vodafone UK, Cairo *Mar 2015 – Jul 2017*

- **The last line before the Ombudsman.** Owned high-priority escalated complaints end-to-end for Vodafone UK, working in the Medallia voice-of-customer platform.
- Trained by Ombudsman trainers in resolving cases before they left the company's hands — protecting the customer relationship and the business at the same time.
- Monitored escalation trends and service failures to identify the process gaps underneath; held to complaint-handling procedure and data protection standards.
- **As Billing Advisor:** repeatedly recognised as a top achiever on NPS and Next Best Offer cross-sell — upgrades, add-ons and hardware.
